This season, teams will be created each week from a single pool of players by random drawing of cards. There will be two divisions for players to choose from (Pro/Advanced or Amateur). These divisions will be used only to record points toward competition for trophies & prizes at the end of the season. Points will be earned each week based on participation as well as performance. Each player will earn points equal to their total cash paid, including any fees for the Weekly Optional Contests. Players will also earn points equal to half of their team's cash winnings, if their team finishes in the top 1/3 of the field for that week. Cash won from CTP and/or the Ace Pool will not count toward player points.

The top 3 points earners in each division will be awarded trophies and prize packages in April 2010. (Date to be announced in March.) Many thanks go to Gary Lewis, Dale DelSasso, Tony Apostolou, Rob Martis and Mike Holmquist for their contributions over the years! Updated point totals will be available each Sunday.
